Welcoming to Oakhurst

*Help do your part at
keeping your
community green!*

Oakhurst is welcoming Eco World to their community. Eco World is a local company that works hard at keeping all clothing and shoes out of the landfills. Eco World then in turn works with local churches, nonprofits, charities, and thrifts to provide with product as well as being an outlet for product that can not be used.

Why Donate clothing and shoes?

Did you know clothing and shoes are top contaminated in our landfills? Instead of throwing unwanted items in the trash, Eco World can use them to help local charities, churches, and thrifts by providing them with items needed. Once these organizations have reached capacity Eco World can also take unused items off their hands. Eco World then uses unneeded items to ship to countries that do not have access to manufactures. Even items that are too worn are used to be recycled and turned into carpet padding and insulation.

What does Eco World Accept?

Eco World donation bins accept all clothing, shoes, backpacks, purses, and belts regardless of condition as long as they are not wet or molded. Everything is used and nothing is put in our landfills.

Where can I find Eco World Donation Bins?

Eco World currently has a donation bin at 40287 Oak Park Way, Oakhurst CA. We are currently growing in the mountain community so keep an eye out for the green donation bins.
